Ai Yori Aoshi - Interactive PC Game

\$4.98 9.95

Hirameki Int'l releases their first CD-ROM game for PC, and it's a great one: Ai Yori Aoshi is a popular anime and manga about a poor college student who's engaged to a very rich girl. The interactive Playstation game has been ported to the PC, allowing fans to play the game in English now. Actually, the game is really two games, since you get two complete games (the South Island Edition and the Winter Lake Edition).

Hourglass of Summer (Interactive DVD Game)

\$4.98 9.95

A super interactive dating-sim game that can be played with any standard DVD player, this is Hourglass of Summer! Right before Summer Vacation you make up your mind to ask beautiful Kaho Serizawa out on a date, but the very next day you wake up to realize that summer vacation is over and he has "day dropped", or time-slipped, to September 1st. Fantastic story and game art, works great on any DVD player.

Tea Society of a Witch (Interactive DVD Game)

\$4.98 9.95

The Mage world and the human world may be able to join again, if three young acolytes can find a way of making it happen. This year three young wizards will cross over into the world of humans... Two of them are elite, and one a total drop out. Can they reunite the two peoples of Earth and the World of Magic? Rated M for mature, due to suggestive romantic themes. Recommended for age 15 and up. The game comes with a limited-edition art book.
